

Professional Development Opportunities for Early Childhood Services

Play Therapy and the Therapeutic Powers of Play

Introduction to the amazing power of play to affect change on children's lives and learn some basic skills to use play in a therapeutic way within the classroom.

2 hours

Brain Development, Trauma and Play

Explore how the brain typically develops and the impact that even the smallest trauma can have on the developing brain. Learn skills to support children to heal through therapeutic play

2 hours

Introduction to Learn to Play Therapy

Learn to Play Therapy is a play program designed to support children to develop their ability to pretend play. Discover the importance of pretend play, how to assess children's play ability and support skill development

2 hours

Individual Consultation/Service Support

I am available to offer additional time to visit your service and offer specific support. This could include specific skill development for staff or guidance to support children within the service.

About Me: Elysia Bonfield (BECE, MCPT)

I am an Early Childhood Teacher and Play Therapist who has been working with young children for over 20 years. I have worked with an array of children displaying challenges due to disability or developmental delay as well as the impacts of trauma.
